

R Turn Bag Housings Into Cartridge Filters!

Basket holds cartridges inside a bag housing!

Rosedale Products introduces a newly designed bag filter converter into which filter cartridges are installed. Thus, the bag filter can be quickly converted to a cartridge filter. Simply put, there are applications that call for a bag filter and others that call for a cartridge filter. Until now, it wasn't very easy to change between the two.

If it becomes necessary to change from bags to cartridges – install the Rosedale Converter Basket.

- Remove the original basket
- Install the new converter basket
- Load the cartridges
- Unique design prevents clean side contamination by removing basket from housing before removing cartridges from converter

You now have a cartridge filter able to utilize any standard cartridge.

Baskets fit standard models 4-12, 8-15, and 8-30 housings. Construction materials are either 304 stainless or 316 stainless steel.

◀ Flow is introduced from above and circulates around cartridges. Fluid flows through cartridge walls, leaving contaminant on media, and "clean" fluid exits through bottom outlet.

How To Order

Build an ordering code as shown in the example below

EXAMPLE: **BC1 - S**

BASKET CONVERTER = BC _____

BASKET SIZE (IN INCHES, NOMINAL)

OD	Length	
6.5	10	= 1
6.5	20	= 2
4	10	= 4

CONSTRUCTION MATERIALS

304 Stainless Steel = **S** _____

316 Stainless Steel = **S316**

Dimensions

Housing Size & Cartridge Capacity	Model Code	OD*	Length*
Model 4 1 cartridge	BC4	4	10
Model 8 3 cartridges	BC1	6.5	10
	BC2	6.5	20

*Nominal in inches

See pages 172-183 for more information on Wound Cartridges and Stainless Steel filter cartridges.
