DIFFERENTIAL PRESSURE GAUGE INSTALLATION

Installation Instructions

1. The DP Gauge/Switch Bracket (1) will be mounted on the duplex as shown below.
2. The DP Gauge (2) will have two 90° fittings (3), one each mounted on the "HI" Side and "LO" Side ports of the DP gauge.
3. Mount the gauge to the DP Gauge/Switch Bracket using the bolts provided (bolts will be found on back of gauge). Use the smaller holes in the center of the bracket.
4. Attach the Short Flexible Hose (5). Note that one end is fixed and the other end is swiveled. Connect the fixed end to the *Inlet Tee Port* (be sure to use Teflon tape or equivalent). Connect the swiveled end to the "HI" Side fitting on the DP Gauge.
5. Attach the Longer Flexible Hose (4). Note That one end is fixed and the other end is swiveled. Connect the fixed end to the *Outlet Tee Port* (be sure to use Teflon tape or equivalent). Connect the swiveled end to the "LO" Side fitting on the DP Gauge.
