

## Turn Bag Housings Into Cartridge Filters!

Basket holds cartridges inside a bag housing!

Rosedale Products introduces a newly designed bag filter converter into which filter cartridges are installed. Thus, the bag filter can be quickly converted to a cartridge filter. Simply put, there are applications that call for a bag filter and others that call for a cartridge filter. Until now, it wasn't very easy to change between the two.

If it becomes necessary to change from bags to cartridges – install the Rosedale Converter Basket.

- Remove the original basket
- Install the new converter basket
- Load the cartridges
- Unique design prevents clean side contamination by removing basket from housing before removing cartridges from converter

You now have a cartridge filter able to utilize any standard cartridge.

Baskets fit standard models 4-12, 8-15, and 8-30 housings. Construction materials are either 304 stainless or 316 stainless steel.

**Flow is introduced from above and circulates around ▲ cartridges. Fluid flows through cartridge walls, leaving contaminant on media, and "clean" fluid exits through bottom outlet.**

## How To Order

Build an ordering code as shown in the example below

**EXAMPLE:** **BC1 - S**

**BASKET CONVERTER = BC** \_\_\_\_\_

**BASKET SIZE (IN INCHES, NOMINAL)**

OD	Length	
6.5	10	= <b>1</b>
6.5	20	= <b>2</b>
4	10	= <b>4</b>

**CONSTRUCTION MATERIALS**

304 Stainless = **S** \_\_\_\_\_

316 Stainless = **S316**

### Dimensions

Housing Size & Cartridge Capacity	Model Code	OD*	Length*
<b>Model 4</b> 1 cartridge	BC4	4	10
<b>Model 8</b> 3 cartridges	BC1	6.5	10
	BC2	6.5	20

\*Nominal in inches
