

## **The HPP All Polypropylene Bag Filter Housing**

### **The Right Choice!**

The HPP Bag Filter Housing provides an excellent, low-cost alternative to other types of filter housings.

### **The HPP is Lightweight and Chemical-Resistant**

Manufactured from reinforced polypropylene with a UV inhibitor for all-weather durability. Resistant to many chemicals for a wide range of industrial applications, the HPP is an excellent fit for your needs. It is economical and reliable.

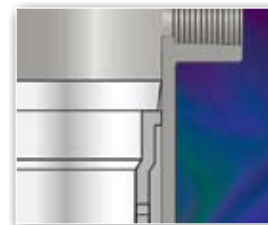

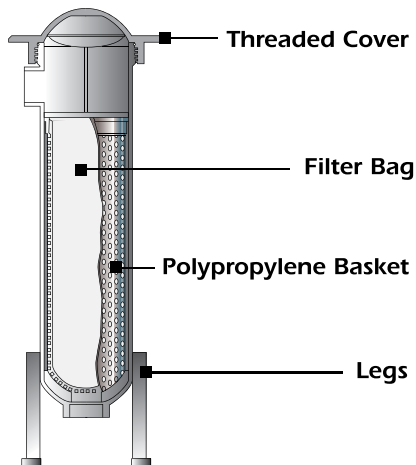

### **Easy Cleaning**

The HPP is engineered with a "clean wall" design, a smooth interior surface that allows faster, easier manual cleaning or in-place flushing.

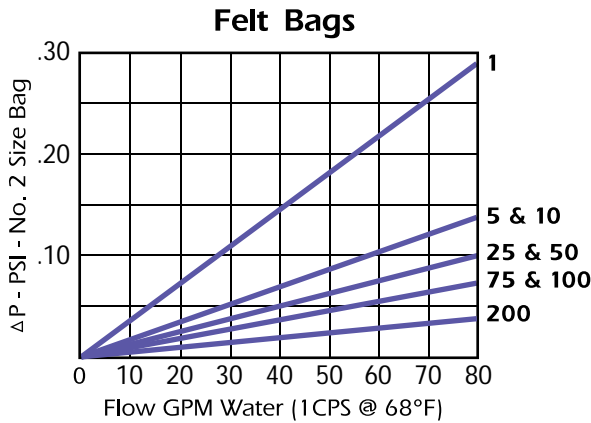

### **Positive Seal Filter Bag**

The HPP X01 Filter Bag has 2 square feet of surface area. The bag seals directly against the wall of the filter housing and eliminates the chance of fluid by-pass.

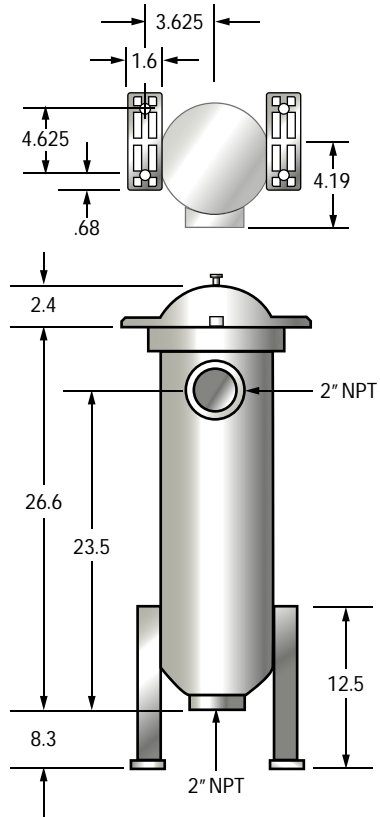

A heavy-duty Polypropylene Restrainer Basket supports the bag.

**Bag Seal**

### Dimensions (IN)

Mounting brackets and legs are standard.  
 Dimensions are reference only and should not be used for hard plumbing.  
 Consult factory for certified drawings.

## How To Order **HPP Housing**

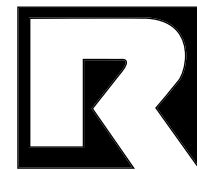

**Order Model Number: HPP - B23 - PP**

## How To Order **HPP Bags**

Build an ordering code as shown in the example

**Example: POS - 5 - X01 - 100POSS - WE**

<b>MATERIAL &amp; FINISH</b>	
Polypropylene Felt = <b>PE</b>	_____ _____ _____ _____
Polypropylene Felt = <b>PO</b>	
Glazed Finish = <b>S</b>	
Plain Finish = <b>No Symbol</b>	
<b>MICRON RATING</b>	
<b>1/2, 1, 5, 10, 25, 50, 100, 200</b>	_____ _____ _____ _____
<b>BAG SIZE</b> = <b>X01</b>	_____ _____ _____ _____
<b>SEALING FLANGE</b> = <b>100POSS</b>	_____ _____ _____ _____
<b>BAG CONSTRUCTION</b>	
Welded Construction = <b>WE</b>	_____ _____ _____ _____
Sewn = <b>No Symbol</b>
