Off-Site Fabrication

Many times it is necessary to fabricate locally to meet content objectives or reduce transportation costs. Our group project managers and team of engineers is experienced in the complexities of off-site fabrication. For some large applications, Rosedale has successfully managed fabrication and manufacturing throughout the far east. Rosedale works with local fabricators on a partnership or team basis to create efficient project execution.

ROSEDALE MANUFACTURING CAPABILITIES

- Plant Management
- Engineering/Drafting
- Quality Control
- Safety, Inspection and Training
- Warehouse, Shipping and Handling
- Vessel Fabrication
- Skid and Manifold Fabrication
- Internals Fabrication
- Pipe Spool Fabrication
- Fitting and Welding
- Sandblasting and Coating
- Complete Production Assemblies

TYPICAL APPLICABLE CODES

- ASME Section VIII, Division I and II, Pressure
- DNV
- Bureau of Veritas

VESSELS

- API Production Equipment Specs
- AWS D1.1
- ASME B31.3
- NACE

PRESSURE TESTING

- Hydrostatic (PSI) 2500

NON-DESTRUCTIVE EXAMINATION

- Radiography (RT)
- Magnetic Particle (MT)
- Liquid Penetrant (LT)
- Ultrasonic (UT)

MAXIMUM TANK SIZE

- Diameter 10 Feet
- Thickness 2.75 Inch
- Weight 20 Ton

WELDING PROCESS

- Shielded Metal Arc
- Gas Metal Arc
- Gas Tungsten Arc
- Submerged Arc
- Flux Cored Arc
- STT Welding
