

R NEW SurfaceMaxx Series Bag-Sized Cartridges

High-performance cartridge provides up to 12 times more dirt-holding capacity

The new Rosedale filter cartridge traps contaminants inside, preventing "WASHOFF" when removing spent or dirty cartridges. They provide larger surface areas and greater dirt holding capacities than standard bags. They are the ideal solution when frequent servicing of filters is a problem.

Construction

Rosedale bag-sized pleated cartridges are unique. Twenty square feet of high efficiency polyester material pleated in a supported construction. This ensures flow cannot be pinched off. It also greatly strengthens the overall integrity of the element. The top sealing ring and cartridge bottom are made of polyester.

Applications

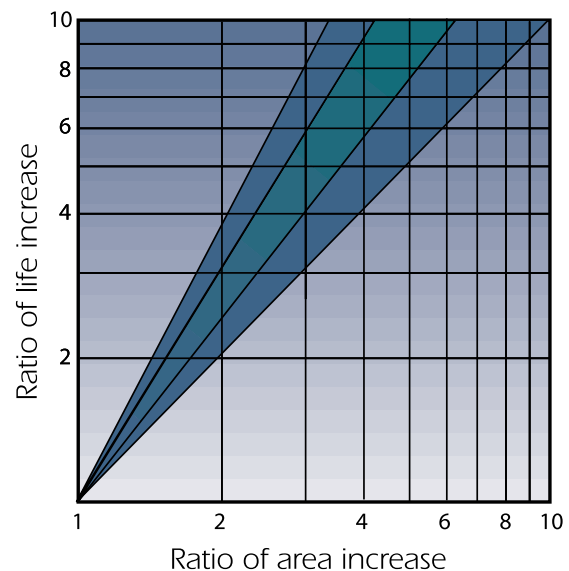

Fluid processing: Solvents, acids, chemicals, hydrocarbons, water and other fluids used in refinery, chemical and petrochemical processing.

Features

- Available in standard bag size 2
- Low pressure drop

Add Area

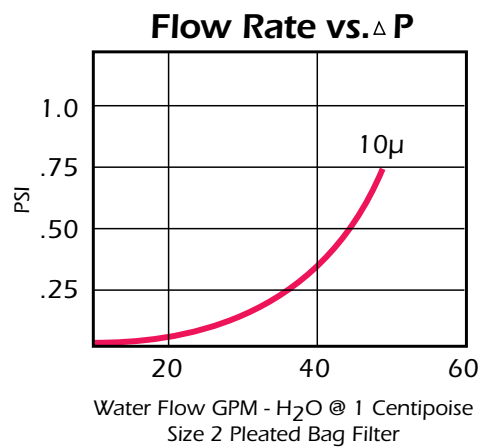

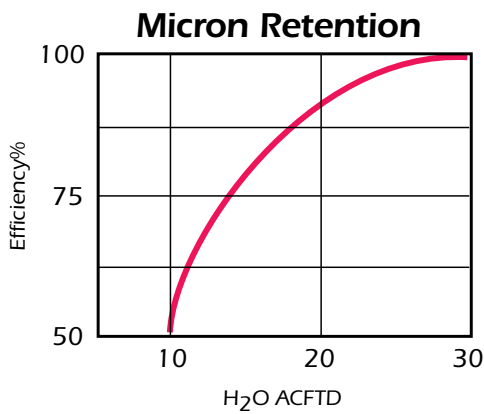

Product Specifications

Filter Composition- 100% Polyester

Surface Area: 20 ft²

Nominal Size: 7"D x 26"L (178 x 660 mm)

Recommended change out differential pressure: 15 PSID

How To Order

Build an ordering code as shown in the example

Example: **PLJRPE - 10 - 2**

MODEL Polyester element	= PLJRPE		CARTRIDGE SIZE/LENGTH 2 = Standard Bag Size
MICRON RETENTION LEVEL 10 Micron	= 10
